Tax Time Tips to Make Your Refund Easy

Tax refund time is coming up, here are some helpful tips to keep in mind when filing and receiving your income tax refund.

1. Elect to receive your refund electronically

If you receive your refund electronically, you will get your refund faster than by check.

Also, since the deposit is made automatically, there is no need for you and/or your spouse to come to the credit union to make the deposit, it will already be in your checking or savings account.

As soon as it is deposited in your account, you can have access to it using your debit card, checks, ATM, or withdrawal.

Go ahead, Press the easy button!

2. All parties listed on the front, must sign the back

If your Treasury Check is made out to both you and your spouse, then **BOTH** of you will need to have signed the back of the check when it is brought to the credit union for deposit.

3. Plan ahead if you want to cash a refund check

If you are cashing a Treasury Check made out to both you **and** your spouse, then **BOTH** of you will need to sign and be present at the time of the transaction.

If you are simply depositing the Treasury Check into your account, then **BOTH** of you will need to sign but only one has to come to the credit union at the time of the transaction. Alternatively, **BOTH** of you can sign the check and drop it into our night drop boxes at each location for deposit into your account on the next business day.

Have you updated your beneficiaries?

Have there been changes in your life that would require an update to your joint owners or beneficiaries on your account? Ask a HSCU Account representative to help you review your account! Be sure that you have someone designated as a beneficiary or joint owner on your account before the time that you need them. Do you have a will? Is that enough? We can help you with those account designations to ensure that you are prepared. Ask a representative today.

Have you verified your account information lately?

It is **always important** to make sure your account information is up-to-date. ESPECIALLY after a busy holiday season like Christmas.

Personal Information

If you have recently moved or changed jobs, email addresses, phone numbers, driver's license, or anything else we have on file to identify you, come by the credit union and verify your information with an MSR today!

Your personal information is very important to keep current in case we need to verify your identity or contact you in the case of fraud or other suspicious activity on your account.

A current address is also important for receiving correspondence from the credit union like your statement or notices about your account. Even if you have eStatements for receiving this information, your updated address is still very important in case we need to contact you by mail.

Here is a list of information you should verify is correct on your account:

- Address
- Phone Numbers
- Email Address
- Current Employer and Occupation—if you've recently become unemployed, this needs to be noted too.

1. Keep a sharp eye on your account by checking on it online often

Use our online banking or voice response systems to easily keep track of your account

2. Keep a watchful eye on your debit card, know where it is at all times

Have a sense of awareness when using your debit card, even during transactions. It is extremely easy to steal your card information. Being aware can save you thousands of dollars.

3. Treat your debit card and PIN as cash

Never give your PIN to a stranger or let someone see it when at the ATM or a retail store. Do not disclose your PIN to anyone over the phone, no one will EVER need to know it. Not even your financial institution.

4. Report lost or stolen cards and fraudulent charges as soon as possible

Quick action is important when trying to prevent fraudulent charges on your debit or credit cards.

5. Check your statement for suspicious activity

The best way to minimize damage from fraudulent activity is to periodically check your statement for unauthorized charges.

You can easily do this electronically through online banking and eStatements.

These online products are easy to setup by coming into any of our branches and speaking to a Member Service Representative.

6. Choose safe and hard to guess passwords

One important key to protecting yourself against fraud or identity theft is to choose complex and effective passwords.

Follow these important guidelines when changing your passwords or creating new ones. It is important that you follow guidelines like this on ALL of your passwords, from your online banking passwords and computer passwords to your iTunes or email passwords.

- Use a minimum length of 8 characters
- Use a combination of uppercase letters, lowercase letters, numbers, and symbols
- Do not use the same password twice
- Do not use someone's name or a word that can be found in the dictionary
- Find an effective password storage utility and use it!

Most Important! Be aware of people who may be watching around you and never give your password to someone else!

Report Card Rewards

Your child can GET PAID to make good grades!

At Heritage South, we know how important it is for your child to do well in school. We also know how difficult making good grades can be.

Heritage South will reward your good student by depositing money into your child's Kid's Club account when you bring in his or her most recent report card. We will deposit money based on the number of 'A's and 'B's (or comparable if a different grade scale is used). EACH 'A' will then enter the child for a grand prize drawing for a \$50 deposit into their account.

All of the details can be found on our website at myhscu.com/kidsclub.
